* When a consonant is notated in parentheses [()], close immediately to that consonant.

The notes that are preceded by a diagonal line should be approached from slightly below the pitch with a quick slide up to the pitch, in a "scooped" style. Be sure the "scoop" is quick, however. It should just be a slight inflection, not a prolonged slide.

Always substitute "Ah" for the long i vowel as in the words I, my, and line.
